# IDEALCARE<sup>®</sup> Tracheostomy Tubes For Trauma Free Application

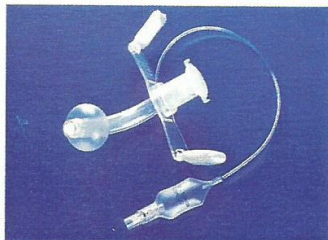

- Swivel 15mm connector provides easy handling
- Smoothly connected inflation tube maximizes patient comfort
- Clear size marking on flexible neckstrap enables easy size identification and provides maximum patient comfort
- Preconnected necktape eliminates extra step especially during emergency situation
- Clear radiopaque line facilitates verification of intubated position
- Soft, thin-walled & optimum sized HVLP or SVLP cuffs for effective sealing of the trachea
- Tube size and batch number are clearly marked on the pilot balloon for easy identification and traceability
- Smooth stylet minimizes tissue drag during intubation

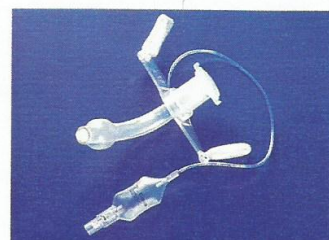

**Plain (Without Cuff) - Pediatric & Adult**

Size I.D. (mm)	Regular Plain
3.0	IC62540030
3.5	IC62540035
4.0	IC62540040
4.5	IC62540045
5.0	IC62540050
6.0	IC62540060
6.5	IC62540065
7.0	IC62540070
7.5	IC62540075
8.0	IC62540080
8.5	IC62540085
9.0	IC62540090
9.5	IC62540095
10.0	IC62540100

**High Volume Low Pressure Cuff**

Size I.D. (mm)	Regular HVLP
6.0	IC62520060
6.5	IC62520065
7.0	IC62520070
7.5	IC62520075
8.0	IC62520080
8.5	IC62520085
9.0	IC62520090
9.5	IC62520095
10.0	IC62520100

**Standard Volume low Pressure Cuff**

Size I.D. (mm)	Regular Standard Cuff
6.0	IC62560060
6.5	IC62560065
7.0	IC62560070
7.5	IC62560075
8.0	IC62560080
8.5	IC62560085
9.0	IC62560090
10.0	IC62560100
