

GLOBAL | REVERSE OSMOSIS | ULTRAVIOLET | TASTE HEIGHTENER

The World's 1st
Water Purifier
That Prevents
Recontamination
By Purifying Water...
again and again.

Aquaguard[®]
duo
RO+UV water purification system

- RO + UV Water Purification
- Automatic UV Purification
- Intelligent Interface

Aquaguard Paani ka Doctor is equipped with **G.ROW.TH.**

G.ROW.TH. stands for Global. Reverse Osmosis. Ultraviolet. Taste Heightener. It is a combination of world-class technologies present individually or collectively in our range of water purifiers.

The Aquaguard DUO is a water purifier that continuously purifies your water to prevent recontamination and comes equipped with Global, RO and UV technology of **G.ROW.TH.**

Airborne bacterial contamination of purified water is possible if the storage water tank is not disinfected periodically. Aquaguard DUO has a unique programmed UV that re-circulates the stored purified RO water periodically, inactivating harmful disease-causing bacteria and viruses. So that your family drinks pure and safe drinking water. Again and again.

Special Features

Intelligent Interface

It is equipped with 4 Intelligent Indicators for added convenience:

- 1. Power Indicator:** Illuminates to indicate faultless functioning of the electrical circuit.
- 2. Water Process:** After 30 seconds, if everything seems fine, water purification begins.
- 3. UV Lamp:** In case of UV lamp failure the UV LED blinks.
- 4. Tank Full:** Illuminates to indicate when the tank is full.

Enhanced Storage Capacity

The purifier has an ample storage capacity of 10 litres. So, rest assured you'll never run short of safe drinking water.

Self Cleaning System

This ensures superior and effective membrane performance by auto-cleaning regularly (1 minute of cleaning every 2 hours).

Re-circulating Pump

Water is circulated through the UV Disinfection Column for 5 minutes every 6 hours to ensure purity of water.

Electronic Membrane Life Enhancer

This special cartridge enhances the membrane life and improves water flow, keeping your purifier functioning effectively.

Last Point UV Purification System

It provides purification just before the outlet, ensuring contamination-free water at the time of consumption.

Leader in RO & UV Purification

- Trusted by over 10 million mothers
- Certified by 105 leading labs
- Service across 650 towns

The Aquaguard Advantage

Technical Specifications*

Dimensions (W x D x H) in mm	: 400 x 246 x 568	Input Voltage	: 230 V AC/50 Hz	Total Hardness	: 600 mg/lit. (max.)
Net Weight	: 11.7 kg	Input Water Pressure	: 0.6 – 2.0 kg/sq.cm	Total Iron	: 0.3 mg/lit. (max.)
Power Rating	: 40 Watts	Input Water Temperature	: 5 – 45° C		
TDS Reduction	: > 90% Approx.	Total Dissolved Solids	: 500 mg/lit.(min.)-2000 mg/lit.(max.)		

Note: If the pressure is higher than the maximum specified, use of a Pressure Reducing Valve is recommended. The above accessory is available with our company at an additional cost.
