

PRESENTING,
the only water purifier
in India that makes
sure your water
is double pure,
doubly safe.

Aquaguard®

INFINITI

Intelligent Water Purification System

e-boiling+

- Nano Silver Technology
- Intelligent Auto-Fill System

Aquaguard Paani ka Doctor is equipped with **G.ROW.TH**

G.ROW.TH stands for Global. Reverse Osmosis. Ultraviolet. Taste Heightener. It is a combination of world-class technologies present individually or collectively in our range of water purifiers.

The Aquaguard Infiniti equipped with Global and UV technology of **G.ROW.TH** doesn't just purify your water but purifies it twice! Its triple-stage purification system eliminates harmful bacteria, viruses, pesticides, chemicals and other impurities from your water. And then, the purified water is passed through the UV chamber again, to make it doubly pure, doubly safe. So that your family stays safe and healthy.

Special Features

Micro Controller Scan (MCS) System

This Mini Brain constantly scans the purifier, automatically detects when the electronic circuit needs attention and alerts the service centre through your phone line!

Intelligence Quotient Alert (IQA) System

Informs you in advance if the Clarity Cartridge, Active Silver Cartridge or the unique **e-boiling+** Chamber needs replacement.

Nano Silver+ Technology

Nano Silver Technology incorporated active carbon block effectively controls contamination, bacterial growth and removes lead and pesticides from the water too.

MINERAL GUARD+

Micro-controller based electronic impulse producer prevents scaling on quartz glass tube of UV reflector housing. Keeping your water purifier functioning effectively.

Double **e-boiling+**

Ensures that your water is doubly pure, doubly safe.

Intelligent Auto-Fill System

Helps you get exactly the amount of water you require. Choose from free flow, bottle or customised settings, as per your requirement.

Patented Surround Purity System

Makes sure that your drinking water gets a complete, surround dose of **e-boiling+**

Intelligent Purity Sensor System

Continuously scans water to give you either absolutely pure water, or no water.

Leader in RO & UV Purification

- Trusted by over 10 million mothers
- Certified by 105 leading labs
- Service across 650 towns

The Aquaguard Advantage

Technical Specifications*

Dimensions (W x D x H) in mm	: 310x247x450	Input Water Temperature	: 5° - 45°C
Net Weight	: 5.88 kg	Input Water Turbidity	: 15 NTU (max.)
Purified Water Output	: 2 litres/min (max.)	Input Water Iron	: 0.3 ppm (max.)
Power Rating	: 18 watts	Input Water Chlorine	: 2 ppm (max.)
Input Voltage	: 230 V AC/50 Hz	Input Water TDS ideal up to	: 500 ppm (max.)
Input Water Pressure**	: 0.4 - 2.0 kg/sq. cm		

NOTE: If the pressure is higher than the maximum specified, use of a pressure reducing valve is recommended. This accessory is available with our company at an additional cost.

*Specifications are subject to change without prior notice.

**Flow rate depends on the input water pressure and condition of the filters.
