GenColl

Gentamicin In Collagen Gel Base

Wound Care
Gel

Introduction

GenColl is a purely water soluble, non oily, clear, Odorless gel. It is composed of highly purified Type-1 Collagen as a base material which acts as a delivery vehicle for the anti-microbial Gentamicin Sulphate-I.P equivalent to 0.1%(w/w) Gentamicin.

Storage

Store at ambient room temperature not exceeding 40 °C.

Availability

- ✓ 15 grams
- ✓ 30 grams

Mechanism Of Action

- ✓ Collagen is known for its wound healing properties by aiding Cellular activity and providing an organized matrix in the skin.
- ✓ Collagen acts as a vehicle for delivery of the Gentamicin in a sustained manner to the wound bed.
- ✓ Gentamicin sulphate is a wide spectrum antibiotic that provides highly effective topical treatment in primary and secondary bacterial infections of the skin.
- ✓ Provides moisture to the wound bed, Preventing dehydration of the granulation tissue.
- ✓ Decreases wound surface contamination.
- ✓ Being transparent gel, Facilitates direct monitoring of the wound.

Indications

GenColl is used for management of wounds including :

- Bed Sore
- Pressure Ulcers
- Dermal Lesions
- Second Degree Burns
- Donor Sites
- Diabetic Wounds
- Scar Management.

Directions For Use

- ✓ Thoroughly cleanse the wound with sterile saline.
- ✓ Apply the Gel/Cream as required to cover the entire wound.
- ✓ Cover it with appropriate secondary dressing if necessary.

Precautions

- ✓ Avoid patients hyper sensitive to Collagen and Gentamicin.
- ✓ Do Not Freeze the Tube.
- ✓ For External Use only.
- ✓ Not For Surgical Implants.
