

## NXT 200

Selectable Flow Nozzle  
from **Firefly**

Extinguishing Fire now **Faster with Lesser Water**

### Salient Features

- ▶ Massive cooling effect
- ▶ Improved operational safety
- ▶ More ergonomically designed
- ▶ Excellent throw
- ▶ Excellent foam quality
- ▶ Light in weight, extremely Handy
- ▶ Large support area for resting Gun on the body
- ▶ Leak proof Ball bearing type rotary inlet coupling
- ▶ Flushing of external Impurities possible during operation
- ▶ Inbuilt water pressure hammer effect absorber

# Technical Specifications

Straight Stream

60° Attack Position

Protective Shield 120°

MODEL	Quadrajt
Flow rate	100 - 120 lpm @ 40 bar
Nett Weight	3.8 Kg
Throwing range	22 to 25 mtrs*
Throwing height	20 to 22 mtrs*
Foam output	up to 2.9 mtr <sup>3</sup> / min
Inlet Connection	3/4" BSP rotary coupling
Extra attachment	Foam making barrel

\*Under test conditions in still air.

Conventional tool of firefighting	Modern tool for firefighting
	
Heavy in weight, generally made of gun metal	Extremely light in weight, made out of hard anodized corrosion resistant aluminium
No shut off control to operator	All controls in the hands of operator
Single Spray pattern resulting in heavy water loss	Different spray patterns giving increased extinguishing capacity with lesser water
No control over discharge of water from nozzle	Flow setting - 250-450-750 LPM at various pressures can be achieved merely by rotation of control grip within seconds
Threat of theft	Reduced threat of theft
Rough handling of this nozzle can result into disturbed water spray pattern (no bumper protection)	Designed for rough handling at fire grounds (Impact protection rubber bumper available as standard)
Increased property loss and water wastage	Reduced property damage and efficient use of available water

## Can be used with:

			
Fire trucks	Hydrant lines	Trailer pumps	Portable pumps

\*Our policy is one of continuous development. We therefore reserve the right to amend specifications without prior notice. Pictures shown in the pamphlet do not necessarily depict details as may be described by & incorporated in a quotation.  
\*For capacities & performance details, please contact to technical department.
