SIGMA SURGICAL PRIVATE LIMITED

TRITON And ONYX Spine cage

Spinal Cage Technology By SIGMA

An Orthopaedic Equipments by SIGMA Surgical

Flexibility of selection in various sizes

We provide TRITON and ONYX cage in Wide range of selection. Surgeon alive advantage and flexibility of selection of cage. This is only possible because both cages are available in various Length, Width and Height.

Unique instrument system

We Introduced Cage Gripper for common usage like pickup, inserting and alignment of implant after inserting, we made it possible with re-design of CAGE GRIPPER.

This unique Cage Gripper can handle all these operations with inter end lock system, which made alignment of implant so easy.

Implants in PEEK^{II} and Titanium

Triton And Onyx both implants are available in Titanium as well as in PEEK^{II}. User can select own comfort of it.

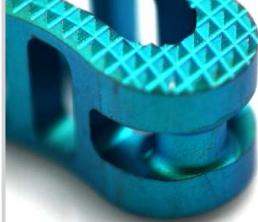

Colour code for various sizes

All Titanium Implants are available in different colour code, which is most useful way to find specific size from the pickup tray.

Stability of Surface

Selection of Surface for Cage position stability is also an Engineering. we select specific pitch and specific after cycles of trials, it plays its own role after surgery.

Easy Pickup tray

We Design Pickup Tray which is fitted with in instruments box. Puck tray carries most sizes of ONYX and TRITON Cages. This tray is designed with direct pickup of implants with Cage gripper instrument.

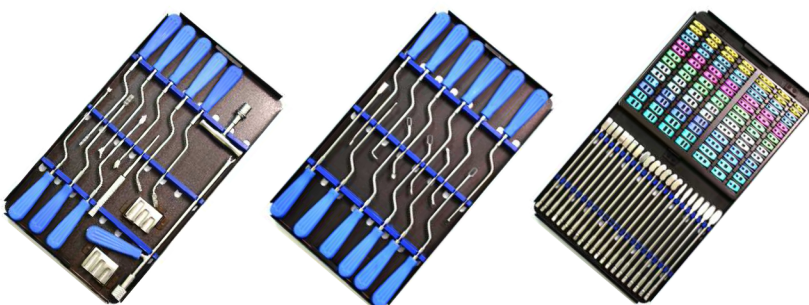

Sterile[£] Implants.

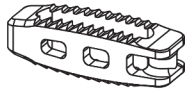

We also Supply Sterile implants which are packed as per ISO Standard. Packed implants are delivered in single pack transport container for extra safety.

Comfort of Instrumentation.

User Friendly Instruments are packed in Autoclave supported instrument box.

!! PEEK is not in Standard Product range now, ask Local Representative for product availability and more details.
 £ Sterile implants not in stock available range, ask query for sterile implants.
