

## Heat Shrinkable Straight Through Joints Suitable for PVC/ XLPE/ PILC Cables

### Heat Shrinkable Straight Through Joints Suitable for PVC/ XLPE/ PILC Cables upto 3.3KV

The **Heat Shrinkable Low Voltage Straight Joints**, which we offer, are manufactured in compliance with the set industrial standards. We provide these Heat Shrinkable Low Voltage Straight Joints at the market leading rates to the clients. Also, we can process the bulk orders of these Heat Shrinkable Low Voltage Straight Joints.

**Availability :** Suitable for XLPE/PVC Cables up to 3.3kV

**Note :** All kits are supplied with full kit contents for making a low voltage Joint.

Electrical Performance		
Tests	1.1KV	3.3KV System
A.C. Voltage Withstand	3.5 KV / 5 Minute	5KV/5 Minute
D.C. Voltage Withstand	15 KV /15 Minute	20 KV/15 Minute

Ordering Information		
Cable Size (Sq mm)	Kit Code 1.1 KV	Kit Code 3.3 KV
4 x 1.5-6	SHLVS -1	SHLVS -11
4 x 1.0-16	SHLVS -2	SHLVS -12
4 x 25-50	SHLVS -3	SHLVS -13
4 x 70-150	SHLVS -4	SHLVS -14
4 x 185-400	SHLVS -5	SHLVS -15
