FEATURES/USES

♦P-Tech Two Piece Vice is a very useful vice for milling, planing, planing, planing, machining centres or Jig boring machines. Two piece construction makes it versatile to hold any size of job which can be accommodated on the machine table. Fixed jaw and the body consisting of movable jaw are to be mounted separately on the machine table depending upon the size of the job. Most suitable for machining of big & heavy work pieces.

- ♦Carbon steel lead screw having acme threads.
- ♦Phosphorous bronze nut for longer life.
- ♦Hardened & ground jaws made of tool steel.
- ♦Unbreakable Steel handle.
