

RADIUS AND ANGLE DRESER

Item Code	Model	OAL	OAH	Base	Max. Wheel Dia	Internal Radii	External Radii	Linear Travel
17001	RAD	345	130	100x100	250	10-40	0-40	72mm

FEATURES/USES

- ◆ This is a precision grinding wheel dressing instrument that dresses two angle tangent to a radius in one continuous motion.
- ◆ Can be used on any type of surface grinder and tool cutter grinder.
- ◆ This device reduce set up and dressing time to bare minimum due to its design.
- ◆ No height gauge or set up aids required, simple, fast and accurate setting for radius is done by measuring over the twin pins with micrometer or by inserting gauge blocks between the pins.
- ◆ Graduations on hub having a main scale and a vernier scale are provided for accurate angle dressing.
