

78**TOOLING BLOCKS****ITEM CODE : 18501**

Tooling Blocks provide four vertical surfaces to hold jobs in vertical plane for machining on NC-CNC Machining Centres, Boring Machines etc. The four working surfaces permit mounting of multiple jobs at one time resulting into reduced set-up time and optimum utilization of machine. These are available in Square, Rectangular and Frame type construction to suit Horizontal Machining Centres having Pallet size 400x400 mm to 800x800 mm and can also be made to specific requirements.
