## HYBRID AMPLIFIER MODEL NO. 409

### Description :-

Optivision Model no.409 is CATV amplifier used in cable transmission system and it can offer high quality video transmission service. The equipment adopts (SMT) surface mounting technology with elegant appearance and reliable performance. The main component of bi-directional amplifier high GaAs amplifier module. It is with Metal housing powder coated providing maximum heat dissipation specially designed to serve CATV network. This 109 model have Powder Coating Blue colour top cover looks very attractive.

Bandwidth Flatness $\pm 1dB$	ECO FRIENDLY	Attenuation $-20dB$	Hybrid Amplifier
Linear 1000MHz	Dual Power 220VAC / 60VAC	GaAs IC Module	HD + Digital Ready
