NODE CUM SUPPLY-2.5A

MODEL NO. 6060 - DUAL OPM

Description :-

Optivision Model no.6061 is Aluminium optical Node cum power supply with dual benefit in built 2.5Amp. power Supply with short circuit & overload protection as supply part. This Optical receiver with high-output, high performance, full-featured CATV optical node designed around the very latest optical receiver technology to reliable deliver a full performance of multiplexed video. This unit is constructed with high quality components to enable it to meet or exceed its performance specifications over a wide temperature range in an un-control environment. The unit have Aluminium Extrusion housing for rust free & good heat dissipation.
