REGULAR/DISTANCE LEARNING MODE
SIX SIGMA
TRAINING COURSE
ATTEND FROM ANYWHERE IN THE WORLD
(RESIDENTIAL)

Lean Six Sigma White / yellow Belt/ Green Belt/Black Belt/MBB/Executive

Dear Sir,

Indian Institute of Quality (IIQ), Six Sigma Quality International, Mumbai is pleased to conduct Six Sigma program.

As is widely known, SIX SIGMA Quality International is conducting various technical courses inviting interested personnel/technocrats for enhancing & fine-tuning of the skills.

The unique features of the Six Sigma programs are:

1. Process Improvement tools will be taught in a very simple and effective manner for real application and there will be no fancy jargons and statistics.
2. All the tools are taught with respect to Shop floor (Gemba) application.
3. A compilation of the case studies will be given as part of the course material for easy understanding of the tools.
4. Group of participants is expected to complete "One" Process Improvement Projects after completion of course using the tools taught. Participants will be provided support through e-mail and phone in their Projects.
5. There will be written test that will be conducted at the end of the course to ensure that the participants have fully understood all the tools.

SSQI will issue a SIX SIGMA Certificate to successful candidates.

Step for Admission:

1. Select the course , you want.
2. Choose Classroom/Distance Learning
3. Pay the fees by ECS/RTGS/NEFT to our Axis Bank
4. Send transaction ID/Deposit Slip along with duly filled Registration form
5. Get Confirmation of your admission by email. Admission is based on first cum first serve basis.
6. Currently Classroom training is only available at Mumbai and your office premises/factory, if there are more than 4 participants in the same city/factory . For outside student, Guest house facility is available of Rs 300/per day in

Mumbai depends on seat availability; otherwise all ranges of hotels are available near to our institute.

7. Other cities student, who doesn't want to come Mumbai, can opt for Distance Learning Mode. Syllabus is the same. You will be given course material by email and we will recommend some books, which you can buy. Three month time will be allowed to study the course material and for any doubts and faculty interaction can be done one to one on Skype is: sixsigma_quality and whatsapp video call on 7979801035 on Sunday between 5.00 to 8 pm. If you want training online we can share presentation on www.zoommeeting.com with live presentation. You can attend from any cities around the world.

Benefits:-

1. The Certified six sigma will acquire the skills of Problem Solving and making Process improvements in a very scientific manner. They will be of great resource to the Organization in their Process/Design trouble-shooting and can help in making Process improvements very fast and effectively.
2. Understanding Six Sigma Concept
3. Measurement methodology change from % defects into PPM level
4. Calculation of Six Sigma Level of the projects and Accuracy level.
5. The team will be guided for effective application of the tools during the entire certification process.
6. At six sigma level defect should reach at 3.4 defects per 10 lacks (PPM) product manufactured or service offered that means accuracy of any work performed should be 99.9996% accurate. There are some of the organizations who work at six sigma levels is like Motorola, GE, Intel etc.

For Example: **Six Sigma Challenge**

99 % Good (At 3.8 sigma level)	99.99966 % Good (At 6 sigma level)
• 54000 lost articles of mail Per hour	• 35 articles lost per year
• Unsafe drinking water 2 Hrs/month	• Unsafe water one second in every 16 yrs
• 1350 incorrect surgical operations / week	• 1 surgical operations in 20 yrs
• 5 short/long landing each day	• 1 short/long landing every 10 yrs
• 54000 wrong prescriptions / yr	• 1 wrong prescription in 25 yr
