BREAST CANCER MANAGEMENT - ONCOLOGIST

NON-INVASIVE DIAGNOSIS AND TREATMENT FOR BREAST CANCER

A cancer that forms in the cells of the breasts. Breast cancer can occur in women and rarely in men. Symptoms of breast cancer include a lump in the breast, bloody discharge from the nipple and changes in the shape or texture of the nipple or breast.

Breast cancer develops from breast tissue. Signs of breast cancer may include a lump in the breast, a change in breast shape, dimpling of the skin, fluid coming from the nipple, a newly inverted nipple, or a red or scaly patch of skin. In those with distant spread of the disease, there may be bone pain, swollen lymph nodes, and shortness of breath or yellow skin.

Breast Cancer Signs and Symptoms

- Swelling of all or part of a breast (even if no distinct lump is felt)
- Skin irritation or dimpling (sometimes looking like an orange peel)
- Breast or nipple pain.
- Nipple retraction (turning inward)
- Redness, scaliness, or thickening of the nipple or breast skin.
- Nipple discharge (other than breast milk)
- A lump in the breast or underarm that persists after your menstrual cycle.

Risk factors: Risk factors for developing breast cancer include being female, obesity, lack of physical exercise, drinking alcohol, hormone replacement therapy during menopause, ionizing radiation, early age at first menstruation, having children late or not at all, older age, prior history of breast cancer, and family history. About 5-10% of cases are due to genes inherited from a person's parents. Breast cancer most commonly develops in cells from the lining of milk ducts and the lobules that supply the ducts with milk.

Seven warning signs of breast cancer

According to caring.com, here are seven warning signs of breast cancer:

- *A change in nipple appearance or sensitivity.
- *Breast or chest pain.
- *Changes in breast shape, size or appearance.
- *Itchy breasts.
- *Red, swollen breasts.
- *Swelling or lump in your armpit.
- *Upper back, shoulder and neck pain.

WHAT WE DO & WHAT WE DO NOT DO:

1. WE DO NOT DIAGNOSE:

We assess, measure, determine or evaluate a condition.

2. WE DO NOT PRESCRIBE:

We recommend, suggest, advice or offer options to alleviate the condition.

3. WE DO NOT TREAT:

We work with, release, normalize, relieve, balance or remedy a condition.

4. WE DO NOT CURE:

We alleviate, balance, improve, correct or normalize a condition.

5. WE DO NOT Use the word "DISEASE":

We use condition, problem or imbalance.

6. WE DO NOT MAKE CLAIMS OR PROMISES:

We explain that health is an individual matter with many approaches to healing and no guarantees. It is our job to educate our clients so that they are more in control of their own health.

Our work involves to DE-STRESS all concerned areas, causing an imbalance, leading to Diseases / Disorders. We work to MANAGE STRESS, to help the system function normally. Our work pattern is to DETOXIFY the system. Support it with ESSENTIAL SUPPLEMENTS & FREQUENCY ENERGIES. And finally, provide CORRECTIVE FREQUENCIES, to restore balance in the system. We strongly believe in "BODY HEALS ITSELF".

We very well know, at initial stages there are no symptoms. It can be diagnosed only when revealed on the physical. But by then it is too late.

We, at MEHAK WELLNESS CENTRE, under the expertise of DR. RAJEEV MEHRA, a GOLD MEDALIST & REIKI GRAND MASTER offer NON-INVASIVE Diagnosis on State of the Art, latest 21st Century technology to verify the onset or presence of CANCER & Cancer affected areas. Issues related to Breast lumps, tumors, cysts, cancerous, non-cancerous or malignant.

We, run a complete 7000 parameter test which includes AUTO IMMUNE disorders and CHROMOSOMES and issues related to GENETIC disturbances, thus are in a position to guide the client of a future onset or presence of BREAST CANCER.

With vast experience of over 35 years, working with Cancer patients and being awarded with 80+ Certificates & Awards – DR. MEHRA is confident of handling all types of CANCERS. Type of Cancer, and location in the body is not important here.

The test thus helps us in taking preventive measures for the disease much before it can show up on the regular physical tests.

We conduct a test to reveal the Genetic component involved in this disease. On having the results for the Genes, Chromosomes, Auto Immune & Cancer specific areas, we are in a position to assess the damage done or possible damage in the near future.

Our work is NON-INVASIVE. We work with BIOFEEDBACK & RADIONICS.

Cancerous cells may be of any type or in any part of the system, makes no difference, the therapy remains the same.

Being in NON-INVASIVE stream, we do not recommend Chemo-Therapy, Radiation, or Surgery. As far as possible we advise to avoid removal of any Body Part.

We strongly recommend the LYMPHATIC DRAINAGE therapy, minimum 36 sittings to clear the morbid material from the Lymphatic system & in and around the breasts.

Basic cause of CANCER is mainly due to GENETIC factors, thus by working on the root cause and stabilizing the GENES, CHROMOSOMES, AUTO-IMMUNE disorders and all parameters related with CANCER, we are in a position to eradicate the CANCER cells without any side effects or danger to client's life. Information on the spread of cancer cells in the system is important to tackle it from each and every cell / organ which it has invaded.

Areas affecting Breast Cancer & Cancer are assessed and worked upon along with the 6 Chromosomes instigating Cancer.

Main causes of activating CANCER are lack of Oxygen supply, Hypoxia and Acidosis. Once these issues are taken into account for correction along with other related issues instigating / provoking / supporting CANCEROUS Cells we are able to resolve the issue.

Our work mainly involves 4 stages- DETOXIFICATION; CHROMOSOME test, to identify hereditary issues, faulty programming; IMMUNITY test, to verify an AUTOIMMUNE angle and finally support with SUPPLEMENTS (AMINO ACIDS, HORMONES, MINERALS and VITAMINS).

REVERSAL OF ALL CONDITIONS, DISEASES, DISORDERS POSSIBLE.
