Busbar Bending Machine

Double Plunger System

**Model
BBM15012WT**

Key Features:

- Double Plunger Machine
- Honed Tube Cylinder
- Hard Chrome Plated Ram
- Durable Construction
- Interchangeable Parts
- Portable

JMTC Busbar bending machines are widely used to bend copper, aluminium busbars used extensively in control panel manufacturing. This machine is fitted with Double plunger system to generate dual pressure i.e. high pressure - low feed and low pressure - higher feed for different applications. These machines are available in power operated Model also.
