

KA Series Closed Linear Grating Scale

All KA series of linear encoder have passed the strict quality examination by the advanced dynamic laser interferometer to ensure the high precision. Test reports for each scale are KA-300 and KA-600 are the most commonly used standard ruler; KA-200, KA500 are a super-minaturethinru, it facilitates the use in some narrow places and the installation of special purpose

01

KA-600 Series (from 100mm up to 3000mm)

Model No.	KA-600
Resolution	0.5 μ m, 1 μ m, 5 μ m

Model	L0	L1	L2	Model	L0	L1	L2
KA600-1000	1000	1150	1170	KA600-2100	2100	2250	2270
KA600-1100	1100	1250	1270	KA600-2200	2200	2350	2370
KA600-1200	1200	1350	1370	KA600-2300	2300	2450	2470
KA600-1300	1300	1450	1470	KA600-2400	2400	2550	2570
KA600-1400	1400	1550	1570	KA600-2500	2500	2650	2670

KA-800 Series Incremental Magnetic Encoder

KA-800 Series can be connectable for length purpose that longer than 3000mm, the max length can be 50m/100m, the appearance of KA-800 will further broaden the application field of digital readout system.
