

MAPAC TECHNOLOGY INTRODUCES THE

SOLUTION FOR EXPORT PALLET

Low Cost Moulded Pallet !

Mapac™ Technology is the first manufacturer of this new-age and eco-friendly Pallet in India. The Pallets we manufacture are known as Compressed Wood Pallets.

Our organization is adapting to providing new-age and Eco-friendly solution to growing environmental challenges. With a vision to achieving the aim to give back to Mother Nature we are following the principal of "Thinking Eco-Friendly Future", Keeping this in mind we have adopted a unique technology to manufacture environmental friendly or Eco-friendly bio-degradable Compressed Wood Pallet from the wood waste for the wide variety of applications to the various industries.

With a factory area spreading over 25000 Sq. Mtr. Mapac™ Technology only uses the raw material from the renewable source to manufacture this bio-degradable compressed wood pallet.

Compressed Wood Pallet is environment friendly. So at the end its life cycle the manufactured product will become the part of the mother earth or nature through its natural ecological process of decomposing itself to its place of origin i.e. mother nature.

Thus making our organizations journey towards achieving our principal a practically achievable reality. Not only we but every individual or the organization attached to us, directly or indirectly is playing a valuable role in our mission of achieving our principal.

OUR JOURNEY :

The timber industry has by far multiplied many a folds worldwide. With experience of over 30 years in the Timber industry the promoters of the organization have a come a long way.

Just started as a small band saw unit under the banner of Mankuva Timber Industries, the organization now has in-house facility for the timber seasoning, chemical treatment, Heat treatment, wood preservation unit with a well equipped laboratory.

Over the years the organization has added various business activities like Importing timber by setting up overseas office and sourcing operations from world over and also manufacturing facility for various timber & construction related products like door frames, window frames, doors, shutters, pallets, customized sawn sizes.

The latest being Compressed Wood Pallets and WPC products under the banner Mapac™ Technology.

The highlight or the biggest achievement of our journey has been our precious clients varying from Government organization, Corporate organizations, Housing industry, NGO's to all the sectors of the industry and person. We thank them for all their feedback and support to us.

This would not have been possible without anyone of our clientele.

***"Thinking
Eco-Friendly Future".***

Why Mapac Compressed Wood Pallets ?

Compliance to ISPM 15 Regulated Wood Packing Material (WPM)

- Clause 2.1 Exemption-Does not require to be heat-treated or fumigated

Mapac™ pallets are moulded from dried wood fibre using very high pressure & temperature. This manufacturing process classifies them as 'particle board', which can also be described as 'processed wood'. ISPM15 regulations only control "non-manufactured wood" or "non-processed wood" and concern raw timber. As every Mapac™ pallet is made this way it means that you pay no extra for specially prepared (or treated) pallets. It also means that any Mapac™ Pallet can go anywhere in the world, so no extra stock is needed. Although certification of this product is not entirely necessary, we offer voluntary certification to ensure trouble free exports.

Mapac pallets are free of TBP, TCP and TCA Chemicals that are a concern to food, produce and Pharmaceutical manufacturers.

Easy Custom Clearance

Space Saving

- Nestable, Stackable & Rackable

Environmental Friendly Product

- From raw material, production to disposal

Resistant to Moisture, Termites Attack & Fungi

**EXEMPT FROM EU AND IPPC REGULATIONS.
NO DOCUMENTATION OR CERTIFICATIONS REQUIRED.**

**LIGHTWEIGHT AND DURABLE, IT ASSURES EASE AND
EFFICIENCY IN TRANSPORTING YOUR PRODUCTS.**

**STRONG ENOUGH FOR REPEATED USE WHILE BEING
ECONOMICAL FOR ONE-WAY APPLICATIONS.**

**CONSISTENT TARE WEIGHT.
ONE-PIECE CONSTRUCTION, NO NAILS OR FASTENERS.**

**WILL NOT HARBOR PEST INFESTATION.
MOLD OR MILDEW.**

**ENVIRONMENTALLY FRIENDLY AND RESPONSIBLE,
THEY ARE 100% RECYCLABLE !**

**EASILY ACCESSIBLE 4-WAY ENTRY BY
FORKLIFT OR PALLET JACK.**

MP1 : 800 x 1200

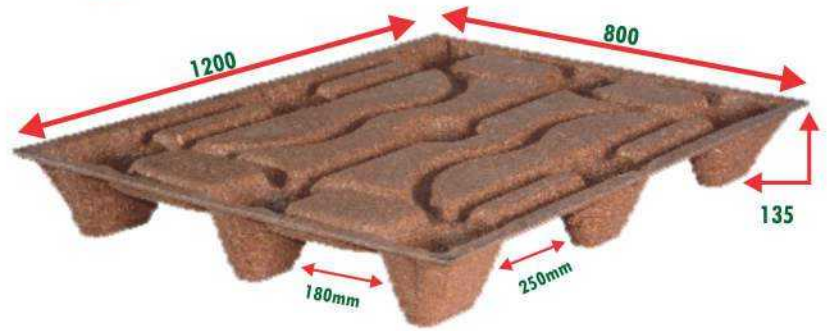

LOAD CAPACITY

STACKING : 2000

LIFTING : 1000

WEIGHT : 15 ± 1 (Uniform Weight in Kgs.)

RACKING : AS PER APPLICABLE

MP2 : 1200 x 1000

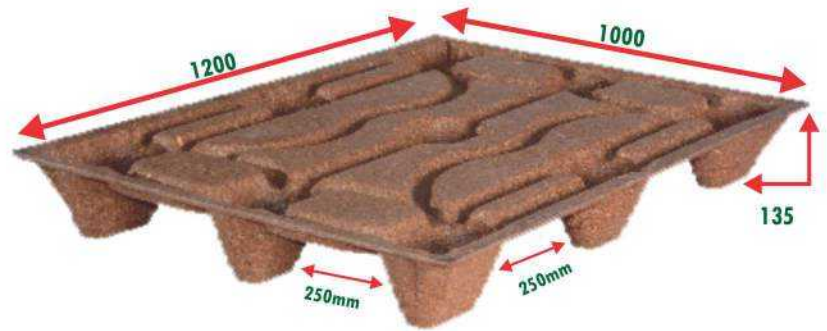

LOAD CAPACITY

STACKING : 3000

LIFTING : 1500

WEIGHT : 19 ± 1 (Uniform Weight in Kgs.)

RACKING : AS PER APPLICABLE

MP3 : 1100 x 1100

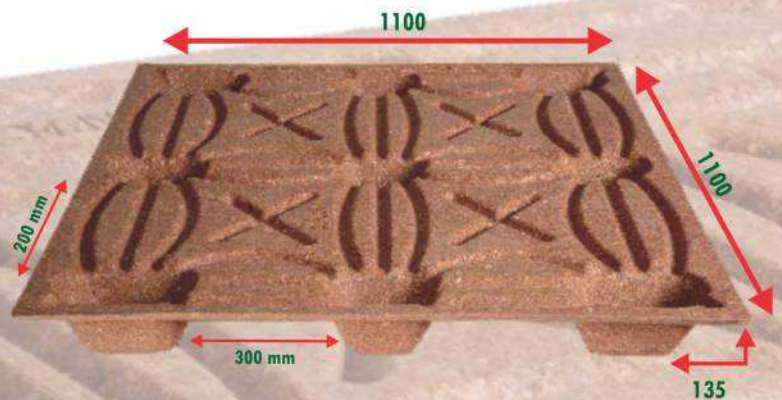

LOAD CAPACITY

STACKING : 3000

LIFTING : 1500

WEIGHT : 19 ± 1 (Uniform Weight in Kgs.)

RACKING : AS PER APPLICABLE

MP4 : 1130 x 1130

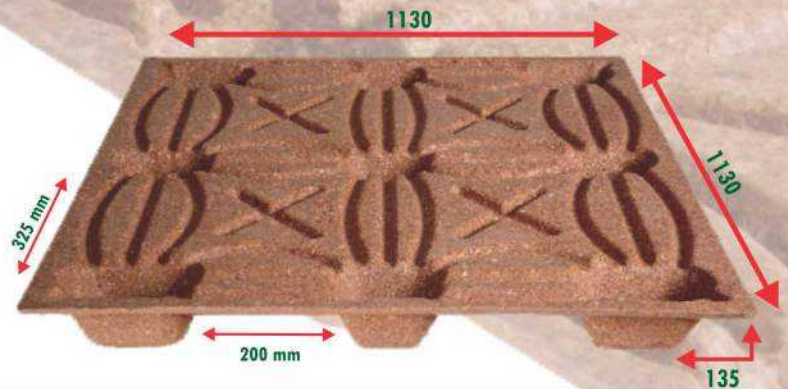

LOAD CAPACITY

STACKING : 3000

LIFTING : 1500

WEIGHT : 19 ± 1 (Uniform Weight in Kgs.)

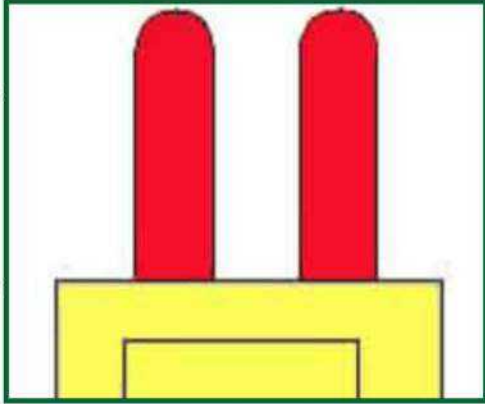

RACKING : AS PER APPLICABLE

- 👉 650 X 650
- 👉 900 X 900
- 👉 1000 X 1000
- 👉 1200 X 1200
- 👉 1350 X 1100

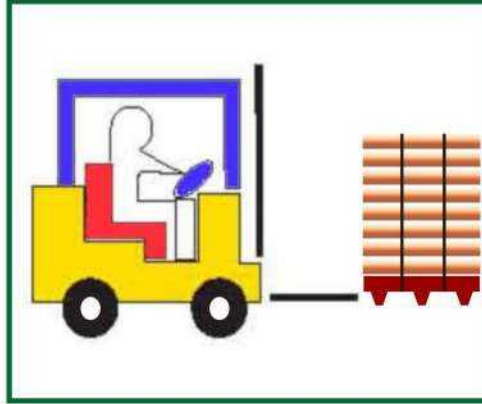

WITH THE VARIED REQUIREMENTS OF OUR PRECIOUS CLIENTS AND TO CATTLE THE SAME WE ARE IN THE PROCESS OF DEVELOPING THE COMPRESSED WOOD PALLETS IN THE SIZE IN THE NEAR FUTURE.

PALLETS HANDLING TIPS

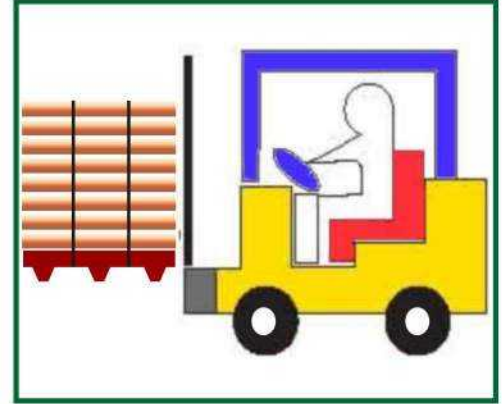

SET FORK

पहले फ़ोर्क को सेट करे

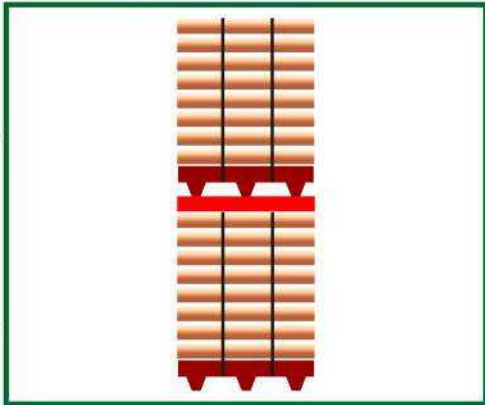

SET ANGLE

सही कौनो से पलेट को उठाए ।
