

True color at the speed of light

In today's fast paced environment, you expect your MFP to achieve maximum uptime. The new Samsung MultiXpress C9201MA / 9251MA / 9301MA helps provide a quicker and more streamlined workflow. Also, it delivers speed and produces quality in abundance.

Twice the power delivers more performance Office productivity increases dramatically with fast printing and scanning capabilities, thanks to a fully integrated Samsung 16Hz Dual Core processor. Handling of large print/copy jobs is faster, and scan throughput is swifter. In fact, with every task taking 1.5 times quicker, you can spend more time working and less time waiting around.

Dual Core Core

## 1.5 times Faster High compression of scanned files Samsung's MRC (Mixed Raster Content) technology compresses the scanned file size significantly without any reduction in quality. So, you can save storage space and working time. Creating and sending scanned files is much easier and faster.

5 ~ 10 times smaller than JPE JPEG MRC

In addition to being powerful, the MultiVpress C9201NA / C9251NA / C9251NA / C9201NA is simple and intuitive to use due to functional yet ergonomic design principles. All features and commands for this device can be quickly found and deployed. This means no frustrating downtime. Most compact

With every business looking at maximising resources and work-ing efficiently, you need a device that can optimise every inch of available floor space. Even in small, confined offices, the slim and simple design of the MultXpress C9201NA / C9251NA / C9301NA delivers big results.

Intuitive, Smart UI

Polumerized toner

Conventional

For maximum control and visibility, the MultiXpress C9201NA / C9251NA/C9301NA features a 7" colour touch panel with smooth flicking and scrolling. Thanks to the intuitive, smart User Interface, you can manage and control even the most complex jobs quickly and easily. User Menu Customization (up to 40 shortcut icons)

SAMSUNG

Samsung's unique ReCP (Rendering Engine for Clean Page) Technology and Real 120x1200 dpl improve the overall quality and vibrancy of your colour printing, ensuring every printoul looks perfect. It automatically sharpens the focus of both graphics and text, while solid objects are overlapped to eliminate white gaps.

Our newly developed polymerized toner has smaller and more uniform particles than conventional toner. Your output will have crisper lines and more vivid colours, in addition to eliminating paper curling. Also, its higher wax content improves the image gloss and enhances the durability, preventing unwanted fading.

Simple and compact has never been

SAMSUNG

so powerful

Enjoy quality printouts

With the space saving 350-sheet Inner Finisher and an efficien internal card reader, you don't need to sacrifice more space fo additional features.

No need for additional space or fixture

# Improve your business' output while saving you money

### Quick and easy setup The Samsung MultiXpress C9201NA / C9251NA / C9301NA is designed to be quickly and easily installed. Setting up is a simple two-person job, and features an optimized package with everything you need including pre-installed DADF (Duplex Automatic Document Feeder).

Low power consumption

With its ingenious Alir-One board, overall energy consumption
is kept low by minimising power requirements. In fact, compared to
a conventional board it reduces ETE (Typical Blachtic)
sumption) by up to 60%. Meanwhile, Samsung Instant Fusing
system (FSI) sechnology helps you print and copy faster, use less
energy, and reduce energy costs.

Keeping a secure office environment rity is a big concern with business today. The Samsun ramework is standard and offers a secure network, tha ent unauthorized access to confidential information. rity Fra

Every printing job from PCs and Mobile devices will be managed by SecuThru<sup>TM</sup> Lite and it won't be released without authentication.
