ECOWRAP™

Say Good bye..

**To Plastic
stretch films**

Plastic waste is a serious issue of the Earth...

It's time to move to an Eco-friendly and reusable Pallet wrap to save the environment and costs..!

Plastic Stretch films VS

ECOWRAP™

- Prevent **LOAD SHIFTING** caused from using stretch film.
- **REDUCE THE COST** of stretch and shrink wrap waste removal
- Always consistent amount of force on the load.
10X STRONGER
- **SAVE TIME** spent wrapping and unwrapping pallets.
- **AVOID THE INJURIES** while wrapping and unwrapping stretch film.
- Saves approximately **3 MINUTES** of time spent wrapping and unwrapping per pallet.
- Reduces food spoilage due to ventilation.
- Reduce waste, packaging errors, costs with a breathable pallet wrapper.
- Stretch Film Is Expensive, Wasteful And Labor Intensive.
