FLOAT & CHORD LEVEL INDICATOR

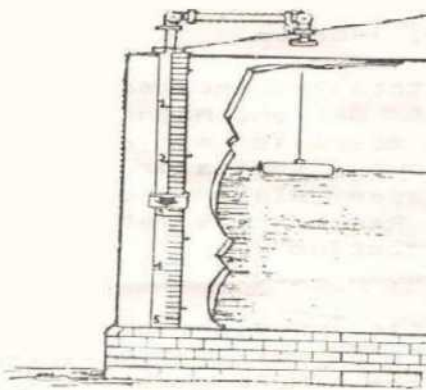

A totally new, reliable and accurate system for liquid level measurement in tall and overhead tanks.

Eliminates all irritating problems like pulley jamming, dust accumulation, pointer friction, rope slippage and jerky indications.

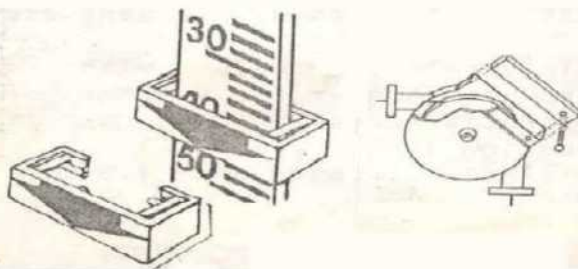

Salient Features

- Dust-proof pulley housing
- SS bush-bearing for smooth rotation of pulley
- Pointer cradle with 6 Nylon rollers
- Adjustable brackets for easy mounting
- Non-corroding aluminium board with controlled cross-section geometry
- 6" wide painted scale with prominent multicolour marking.
- Sleek float with large diameter for higher accuracy
- Wide choice in material of construction like SS, MS, Polypropylene for float and Nylon for rope
- Magnaseal version for vapour tight service available.
- Easy to transport and instal.

Applications

- ★ Overground/overhead storage tanks.
- ★ Water, Fire Water, DM Water Storage tanks.
- ★ Storage tanks for Petroleum products like Furnace oil, LSHS Diesel, Lub oil etc.
- ★ Storages like vegetable, oil, Molasses Silicates, Glucose etc.
- ★ All non-hazardous-non pressurised tanks.
