Feel Secure

CYBERSAFE

Even the smallest fire can destroy your precious data.

This safe, will not give that slightest chance.

When you are thinking of safety for your data, you also have to think of the smallest hazard that can destroy it in seconds. We have thought about it with Cybersafe, made with state-of-the-art world-class technology... that protects your data from heat, humidity, fire, dust and magnetic field. Cybersafe is constructed with special material and harnesses world-class technology to protect your data from every big and small hazard. So you can be completely worry-free.

SP Certified (Swedish National Testing Institute)NT Fire 017 equivalent to UL - 150 Data Protection with upto 120 min fire endurance and impact tested

> Tested for 1090°C for one hour where the inside temperature remains at 30°C, even less than what is required internationally (which is 50°C)

> Double chamber with thermo insert inside to prevent seepage of water, smoke or any residue of dust and humidity

> Dual key control prevents unauthorized access to data

> Auto-locking system saves both data and time

> Improved galvanized steel to resist corrosion

Your Data and other sensitive material stay absolutely safe inside.
