Eggs

RAJASANTIMEX

INTRODUCTION

- We offer a good quality range of **Farm Fresh Eggs**. Eggs are rich in nutrients and are a very affordable component of a healthy diet. These contain high-quality protein and all nine essential amino acids. They are a good source of choline, which helps regulate the brain, nervous system and cardiovascular system.
- We process the eggs in a natural and most hygienic environment to prevent the outbreak of disease caused to birds. With our vast experience in the industry,
- we follow the best practices and methodologies to deliver large amount of best quality eggs.

- We offer a wide range of **White Table Egg**.

These eggs are rich in nutrient and form excellent diet. Our organization supplies and exports these eggs to far corners of the world.

- we take extra care to package these eggs in specialized packaging and with careful handling procedures.
