REAL HERBAL:

AN EMINENT SKIN SPECIALIST LATE DR. PRITHVI RAJ SAWHNEY developed this highly effective formula in the early 1950's. He used it in his medical practice and found wonderful results in balding and early graying. The hair problems of his patients vanished within days; Scores of patients with hair problems visited him, he gave them hair growth tablets (as he called them) and a lotion to apply on hair. Both were prepared by boiling raw herbs in a given proportion along with Aloe vera. This lotion gradually developed into a shampoo by his son and an industrialist introduced this combination, about 20 years back, by the name of HAIR FLOW.

Natural Conditioner + Shampoo

HAIRFLOW TABLETS and SHAMPOO were also launched by him. It is much different than other commonly available chemical shampoos in the market. Many calling themselves herbal.

Prepared by boiling 20 herbs and not just by adding extracts of herbs in harsh chemicals.

Please see 'THERAPEUTICS' of all HERBS mentioned at the bottom of this page.
